SUMMARY

AI-focused MERN Stack Developer skilled in building full-stack web applications with generative AI integration. Seeking an AI MERN Stack Developer role to build intelligent, user-focused products.

EDUCATION

B.Tech Information Technology **2020 – 2024**
Indian Institute of Information Technology, Una, Himachal Pradesh

SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL
Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Firebase Authentication
Database: MongoDB, Mongoose, MySQL, Redis
Cloud & DevOps: AWS, Docker, Render, Vercel, Cloudinary
Developer Tools: Git, GitHub, Postman, VS Code, Figma, Razorpay
AI & GenAI: Gemini API, LLM Integration, Prompt Engineering, RAG, Vector Embeddings, LangChain, LangGraph, MCP
Core Strengths: System Design, Problem Solving, Clear Communication, Teamwork, Time Management, Adaptability

PROJECTS

VOXAI | *MERN, Gemini API, Firebase, Razorpay* | *GitHub* | *Live Demo* Sep 2026 – Oct 2026

- Enabled any business to add a voice assistant to its website with one script tag by building a full-stack MERN platform with 3 response tones and 4 widget themes.
- Delivered hands-free, business-aware answers and voice-driven page navigation by integrating Gemini API with browser speech recognition and synthesis.
- Secured and monetized the platform with 8 REST endpoints, Firebase ID token verification, rate limiting, a 200-message free plan, and Razorpay checkout for a Pro plan.

SOCIALFLOW | *MERN, Gemini API, Leonardo.ai, Zernio* | *GitHub* | *Live Demo* Aug 2026 – Sep 2026

- Streamlined multi-platform posting into one MERN dashboard where users connect several social accounts and schedule posts across platforms via Zernio.
- Cut content creation to a single prompt by generating captions, post content, and AI images with Gemini API and Leonardo.ai.
- Protected user data with secure authentication and user management, and gave admins a responsive dashboard on REST APIs, with CodeRabbit AI for automated code reviews.

STUDY NOW | *MERN, Gemini API, Cloudinary, Razorpay* | *GitHub* | *Live Demo* May 2025 – Jun 2025

- Enabled instructors to sell courses online by building a full-stack MERN learning platform with secure authentication, Cloudinary media uploads, and Razorpay payments.
- Made course discovery accessible to non-English speakers by building a Gemini API voice search that works in local languages like Hindi.
- Helped students track progress by building a personalized dashboard with charts for course enrollment and learning progress.

EXPERIENCE

CAREAIT **Sep 2024 – Dec 2024**
React.js Developer (Remote) | *React.js, Tailwind CSS, REST APIs*

- Developed the frontend of CareAIT's website with modular, reusable React.js components, making the codebase easier to maintain and scale.
- Designed a responsive interface with Tailwind CSS, delivering a consistent look and feel across mobile and desktop.
- Integrated RESTful APIs in close collaboration with backend developers, reducing data load times by 15%.

KAJAL FRP INDUSTRIES **Jan 2023 – May 2023**
Frontend Developer (Remote) | *React, Bootstrap, Figma*

- Built a responsive, SEO-friendly lead generation website from scratch for a chemical solutions company using React and Bootstrap.
- Created optimized inquiry forms and interactive UI components that improved lead conversion by 20%.
- Refined UX and page performance through iterative updates to the inquiry forms.
